METAL GARAGE BOXED EAVE ROOF

CALL NOW TO ORDER!

With 252 square feet of storage space, this garage is great for storing one car or truck, with added space for heavy equipment. There is an 8' wide x 8' tall garage door on the front of the building that can accommodate almost any car or truck. You can customize the dimensions or features on this metal garage for whatever you need, including adding entry doors or windows. Choose from our wide selection of colors to find one that fits your style.

Our durable garages are built to last a lifetime. We manufacture all of our metal buildings with only the highest quality steel framing and roofing panels. All buildings are reinforced with bracing on the corners and center for ultimate durability. Quality side wall paneling protects your enclosed vehicles and equipment from harsh weather and debris. The boxed eave roof is guaranteed to be free leaks and other defects.

LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
