12X 21 METAL GARAGE BUILDING

CALL NOW TO ORDER!

Our 12' x 21' metal building is an affordable way to protect your car or truck. With 252 square feet of storage space, this garage is great for vehicle and equipment storage. There is an 8' wide x 7' tall garage door on the front of the building that can accommodate almost any car or truck. You can customize the dimensions or features on this metal garage for whatever you need, including adding or removing doors or windows. Choose from our wide selection of colors to find one that fits your style. The boxed eave roof looks great, without sacrificing any quality. The traditional style will easily blend in with other buildings on your property. The roof panels, wall panels, and building trim can be ordered with as many colors as you need, adding your own personal touch to the structure.

LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
