RV CARPORT METAL BUILDING REGULAR ROOF

CALL NOW TO ORDER!

Looking for affordable storage? This RV Carport is a great value to protect your valuable vehicles and equipment. At 12' W x 36' L x 8' H, it comfortably stores your RV, mobile home, or camper, with extra space on the ends for lawn equipment. Customize dimensions, features, and more. Add gables on the ends for extra shielding from rain, or create a fully enclosed garage for maximum protection. Choose from large color selection to match style and existing structures on property.

Manufactured with premium grade steel framing and 29 gauge roof panels. Reinforced with bracing on the corners and center. Innovative truss design allows for buildings up to 60' wide, without any interior supports needed. This gives you the freedom to customize your building for whatever you need. The regular roof is our most popular roof design and is guaranteed to be free of leaks and other defects.

12' WIDE x 36' LONG x 8' TALL

LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
