RV CARPORT METAL BUILDING REGULAR ROOF

CALL NOW TO ORDER!

If you have been looking for affordable storage, this 12' x 36' RV Carport is an outstanding solution. With dimensions of 12' wide x 36' long x 12' tall, this metal building provides 432 square feet of storage space. The carport can comfortably store your RV, motorhome, camper, or assorted lawn equipment. The steel frame walls are 1' shorter than the length of the roof. You can customize your RV Carport by adjusting dimensions, features, and much more. You can even fully enclose the building by adding side and end walls. Choose from our large color selection to match your style and existing structures on your property.

The RV carport is manufactured with premium grade steel framing and 29 gauge roof panels. All of our structures are reinforced with bracing on the corners and center of the steel frame for maximum durability.

LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
