This commercial grade metal carport is perfect for anyone looking for a metal building at a great price. The carport retails for \$3960 or more, but you can save big today with **Elephant Structures**. The carport is certified for high wind and snow loads, and includes heavy duty 3" x 2" commercial framing and a strong boxed eave roof. The carport has an open front with a gabled end for easy vehicle access, with an enclosed back end and side walls for added protection.

If you are looking for a metal carport at a great price, ask about our exclusive factory clearance building kits. These are second quality, 'scratch and dent' DIY kits ready for factory pick up, or to ship direct to your door – call for complete details. Save big on this commercial grade metal carport today, but hurry, only while supplies last!

LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
