### 24 X 31 TWO CAR METAL GARAGE

**CALL NOW TO ORDER!**

A 24x31 two car metal garage is a great way to protect your cars and trucks. This building has 744 square feet of garage storage space and measures 24' wide by 31' long by 10' tall. This structure is custom designed with two 10' x 9' garage doors on the 31' side wall, with a walk-in door on the front end. The placement of the doors maximizes your available storage space and allows you to store lawn equipment alongside your two cars or trucks. You can customize this metal garage for whatever you need! Choose from our large selection of colors.

#### LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
