TWO CAR STEEL GARAGE WITH METAL ROOF

CALL NOW TO ORDER!

This two car steel garage is built with a strong metal roof and durable frame. With 572 sqft. of storage space, it has plenty of room for two cars or trucks. The 9' wide x 7' tall garage doors can fit almost any vehicle. There is also a walk-in door in between the garage doors for personal use. Dimensions are 22' wide x 26' long x 9' tall. Customize this two car steel garage for anything you need. Adjust dimensions, add or remove doors, or change the color.

We only use the highest quality materials when manufacturing our metal buildings. This garage is built with rugged galvanized steel framing and heavy duty roof and wall panels. The steel frame is reinforced with corner and center bracing for added durability. The garage is also guaranteed to be free of leaks and other defects. For even greater strength, ask about our mobile home anchors.

LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
