22 X 31 METAL BUILDING GARAGE STORAGE SYSTEM

CALL NOW TO ORDER!

With a 22x31 metal building, you are getting 682 square feet of storage space that can be customized for whatever you need. Total dimensions of this metal building are 22' wide x 31' long x 8' tall. The regular roof is our most economical design and has a 3:12 pitch, giving the garage a peak roof height of just under 11'. The garage doors on the front wall are great for vehicle storage, while the door on the side wall can be used for your outdoor equipment. This building has plenty of space for two cars or trucks, with extra room at the back end for other various items.

LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
