**TWO CAR CARPORT**

**CALL NOW TO ORDER!**

This two car carport from **Elephant Structures** is perfect for anyone looking for a metal building at a great price. The carport features a strong boxed eave roof and has 504 square feet of storage space. Building specifications include dimensions of 24' wide x 21' long x 7' tall, a 14 gauge galvanized steel frame. This versatile structure is designed with open sides and ends for easy access, and can be customized for whatever you need. Create a fully enclosed garage or add side panels for more protection - the choice is yours!

If you are looking for a two car carport at a great price, contact the experts at **Elephant Structures**. We custom manufacture clear span buildings up to 60' wide, at any length you need. Heavy duty commercial framing available. Give us a call today!

### LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
