PRICES VARY ON LOCATION • FREE DELIVERY & FREE INSTALLATION!

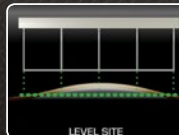

This triple wide metal carport from **Elephant Structures** is perfect for anyone looking for a premium quality storage building at a great price. The carport has dimensions of 26' wide x 24' long x 7' tall and is manufactured with a 14 gauge galvanized steel frame and 29 gauge roof panels. This carport has a strong vertical roof and is certified for heavy wind and snow loads, ensuring that it is built to last. The structure is large enough to fit three cars underneath and has an open design that allows for easy customization.

If you are looking for a triple wide carport at a great price, contact the experts at **Elephant Structures**. We custom manufacture clear-span buildings up to 60' wide, at any length you need. Heavy duty commercial framing available. Give us a call today!

LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
