### CUSTOM VALLEY BARN

**CALL NOW TO ORDER!**

This custom valley barn from **Elephant Structures** is perfect for anyone looking for a top quality metal building at a great price. The barn has total dimensions of 30' wide x 31' long x 10' tall. There is an 18' wide x 31' long x 9' tall center structure attached to a 12' wide x 31' long x 6' tall lean-to. It is manufactured with a strong 14 gauge galvanized steel frame and 29 gauge roof panels. The barn features two roll-up garage doors and two entry doors. Great for protecting your car, truck, and assorted outdoor equipment.

If you are looking for a metal barn at a great price, trust the folks from Elephant Structures! We are one of the oldest and largest metal building suppliers in the nation! Upgraded commercial framing is available. Give us a call today!

### LAND/CEMENT FOUNDATION MUST BE LEVEL

CONCRETE PAD

LEVEL SITE

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
