STEEL BARN WITH VERTICAL ROOF

CALL NOW TO ORDER!

This 36' wide x 21' long steel barn is an affordable solution to all of your storage needs. The center structure has 10' legs, while the lean-tos on the side have 7' legs. The 3:12 pitch roof is continuous throughout the structure. In all, the barn offers 756 square feet of storage space. It is great for storing three cars, trucks, and additional equipment. It can also double as an animal shelter, warehouse, and much more. Comes standard with three frameouts on the front wall for easy access to your stored items.

Manufactured with the highest quality materials. Frame is constructed with premium American-made galvanized steel. Roof and wall panels are heavy-duty 29-gauge steel sheets. Center structure is connected to the lean-tos with a continuous vertical roof guaranteed to be free of leaks and other defects. Reinforced with added bracing on the corners and center of the steel frame.

36' WIDE x 21' LONG x 10' TALL

LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
