### METAL WORKSHOP VERTICAL STYLE

**CALL NOW TO ORDER!**

Manufactured with high-quality steel and designed to last for years to come, this commercial metal workshop could be the perfect building solution for your home or business. This metal workshop features four garage doors for added accessibility and convenience.

Measuring 40' wide and 51' long with a height of 14', it provides more than 2,000 square feet of secure storage space, perfect for protecting for vehicles and other property from the threat of theft or severe weather. All of our buildings can be designed and certified to withstand severe weather conditions specific to your region.

### LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
