**GALVANIZED STEEL BARN**

**CALL NOW TO ORDER!**

A county barn is an outstanding solution to your storage needs. The barn has two lean-tos on each side for separate storage sections. Total dimensions of the barn are 48' wide x 21' long for a total of 1008 square feet of storage space. The center structure has 12' legs, while the lean-tos each have 9' legs. The barn can easily fit four cars or trucks. It can also double as an animal shelter, horse barn, and much more. Choose from our large color selection to find one that matches other buildings on your property.

If you are searching for a way to store large amounts of vehicles and equipment, this county barn is the perfect solution. Built with premium galvanized steel. To purchase this barn, or for a free consultation, give us a call today!

### LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
