### ONE CAR STEEL CARPORT

**CALL NOW TO ORDER!**

If you have been searching for an affordable way to protect your car or truck, then check out our one car steel carport. It can also fit two motorcycles underneath the metal roof. Dimensions of the car shelter are 12' wide x 21' long x 7' high for a total of 252 sqft. of storage space. It has an open design for maximum versatility. Customize by adjusting the dimensions, adding or removing walls, changing the color, and much more.

All of our metal buildings are manufactured with top quality materials. The frame is constructed with 14 gauge American-made steel. The roof panels are 29 gauge heavy duty steel sheets. We reinforce our carports with extra bracing in the corners and center of the building frame for maximum durability. The regular style roof has rounded corners and is guaranteed to be leak-free.

#### LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
